FOREWORD

In this time, when the world is looking up to the sky, to the future, we as Seniors also look up to our goals and ideals and to the time when we will have achieved them.

As we leave these familiar surroundings, we look back to the past from where we came. We hope that in future years we will all be able to look down from our achieved goals, back to our high school years, and page through this book remembering

It is with extreme pleasure that I take this time and space to congratulate the seniors and the underclassmen for their fine efforts in making this a successful school year. It is indeed challenging times which all of you must face in the future. How well each of you meet this challenge and conquer your problems will be determined by how well you have mastered the necessary tools of learning which are at your disposal. Some of you will go on to college or other areas of further preparation for your life's work while others of you will enter society and compete immediately. Regardless of your intentions, we of the East Troy faculty wish you the best in whatever field of endeavor you may enter.

Sincerely,
Mr. Rieben

See you Sunday! Here
you are graduating & we
have another long, hard
year ahead of us! Oh well -
It's been a rest tho! I just
saw a great guy in town
and study hard next year at
school! I know you will be
sure to work hard at the Ark and
we'll see you this summer!

Good!

Ken

Ken
I hope you are
happy in your new
school. I hope you
will be a success in
your studies. I hope
you will be a leader
in your class. I hope
you will be a friend
to all. I hope you
will be a good citizen.
I hope you will be
a good person. I hope
you will be a good
friend. I hope you
will be a good citizen.
I hope you will be
a good person. I hope
you will be a good
friend. I hope you
will be a good citizen.

Best
always to a good mathematician,
friend, a theoretician, a physicist,
a remembered as a rough rider.
college (and a rough rider)

Men,
look at the Hall
and in football I know
that nobody will have more
spirit or make a harder
effort than you. You'll
do well in whatever you
take part in. We sure
had fun in football, 4th & 5th
physics etc. Best wishes
from one Rough Rider to
another — Mark Peterson
P.S. Don't believe everything
Mammy tells you! (I think)

Now:
Don't think of anything
to say except the usual
"and I mean it -
"Good Luck!"
because you will
mean it.

 Now it's my turn to ask
 you what you were doing
 that night you ran into us.
 I never got a bite of that
